

CCFP

SERVICE NEWS 029

New software for CCFP - KIRK DECT-Z 1500

File name: F4d__00.ktb (PCS 4D)

The above mentioned file name is similar to the former Flash.ktb for Solo systems which can be used for CCFP's containing hardware PCS 5 or older (Small Flash).

Use of this software demands Boot Prom - part number 13298200 - on motherboard.

F4d__00.ktb (PCS 4D) has replaced Flash.ktb - PCS 4B

New facilities:

- New facilities have not been added, but small corrections regarding messaging for special applications have been implemented.

The software can be downloaded here
