

CCFP ADMINISTRATION PROGRAM

SERVICE NEWS 144

CONCERNING:

New version of the program CCFP Adm. Program - Version 8.11.

New features:

- CLIP Timing feature added under the **CCFP Setup** tab.
The program is now prepared for the next generation of KWS 500 which is able to transfer CLIP from local extension to handset.
- Help section in general improved/extended. Under Extra material is added different material. Deployment section extended.

Please refer to the HELP file in the CCFP Adm. Program for further information concerning changes implemented.
Can be found under folder - Facilities implemented & bugs corrected.
