

## KIRK WIRELESS SERVER 500

---

### **Service News 146 CONCERNING:**

Release of new flash software version 14035600 PCS 3Ab for KIRK Wireless Server 500.  
File name: 14035600\_PCS\_3Ab\_.bsx

### **INFORMATION:**

The software version 14035600 PCS 3Ab is similar to the previous software version 14035600 PCS 2S.  
No software bugs or corrections have been made.

The software is developed to support features in the future.

**Be aware** that the new software version 14035600 PCS 3Ab can only be used in KWS500 containing HW 8 or higher and manufactured with software version 3X (X=a letter).

**Do not** load the new flash software into KIRK Wireless Server 500 HW 7 or lower and manufactured with software version 1X (X=a letter).

**Units delivered from week 15 - year 2007 will be equipped with this version.**
